

TEQ™ LITE

The TEQ LITE maintains key features of the TEQ SMART table in that it can be folded for storage, taking up minimal space, and transported easily thanks to its lockable wheels.

Thanks to its lighter structure, the third edition of the innovative TEQ table family is a real game-changer. TEQ LITE is attracting more and more people around the world to try their TEQ-skills. The TEQ LITE maintains key features of the TEQ SMART table in that it can be folded for storage, taking up minimal space, and transported easily thanks to its lockable wheels.

FEATURES AND BENEFITS

- Used for everyday practice
- Individual training
- Suitable for indoor and outdoor use
- Weatherproof
- Waterproof
- UV proof
- Mobile
- Easy to move
- Foldable

MATERIAL INFORMATION

- High density polyethylene (HDPE) net
- Fiberglass reinforced polyester table top with matte finish
- Steel leg structure with anti-corrosive coating

DETAILS

- Length: 3 m
- Height: 0.9 m (with HDPE net), 0.76 m (without HDPE net)
- Width: 1.5 m (without HDPE net)
- HDPE net width: 1.7 m
- Folded length: 0.76m
- Folded height: 1.84m
- Folded width: 1.5 m (without HDPE net)
- Half folded length (for solo practice): 1.92 m
- Half folded height (for solo practice): 1.8 m
- Half folded width (for solo practice): 1.5 m (without HDPE net)
- 25 cm diameter wheels
- Weight: 111 kg
- Leg structure color: metal
- Table top color: light grey
- Net color: black
