TEQ ONE is a new and revolutionary sports equipment that took over two years' testing and research to eventually develop the final innovative and sophisticated shape.

TEQ ONE is a new and revolutionary sports equipment that took over two years' testing and research to eventually develop the final innovative and sophisticated shape. The net is solid and thus the ball bounces back from it, so this way the concept of uninterrupted games is no longer a dream.

The structure of the TEQ table, aligned with the rules, does not allow luck or chance to interfere with the game; players can only rely on their skills and abilities.

FEATURES AND BENEFITS

- Pro table: used in competitions
- Suitable for indoor and outdoor use
- Weatherproof
- Waterproof
- UV proof
- Fixed structure
- Easy to assemble
- Can be fixed to the ground
- Transparent net

MATERIAL INFORMATION

- Plexiglass (PMMA) net
- Fine-structured high pressure laminate (HPL) table top
- Steel leg structure with anti-corrosive coating

DETAILS

- Length: 3 m
- Height: 0.9 m (with plexiglass net), 0.76 m (without plexiglass net)
- Width: 1.5 m (without plexiglass net)
- Plexi net width: 1.7 m
- Weight: 147 kg
- Leg structure color: orange
- Table top color: dark grey
- Net color: transparent
